

# RAINWORKS FEEDING PROGRAM

*For Hydroponic Gardening, Additives Only*

**RAINWORKS**  
FERTILIZER CO.

## STARTING SEEDLINGS

- Apply Ultra Jive once a week during the grow cycle and twice a week during the flowering cycle.
- Use GREEN ENVY or another rooting media to reduce yellowing in clones while they develop new roots, prior to placing your cuttings (4 ml/L or 3/4 tsp/Gal)

GROWING CYCLE	Light	Green Envy	Ultra Jive	Black Rain	Rain Gold	Big Blossom	Bloomstar	Megabud
Seedlings & Cuttings	18 Hours	3 ml/L or 2½ tsp/Gal	5 drops		2 ml/L or 1½ tsp/Gal			
Week 1 Vegetative	18 Hours	5 ml/L or 4 tsp/Gal	1-2 ml/L or ¾-1¾ tsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal			
Week 2 Vegetative	18 Hours		1-2 ml/L or ¾-1¾ tsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal			
Week 3 Vegetative	18 Hours		1-2 ml/L or ¾-1¾ tsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal			

## FLOWERING CYCLE

Week 4 Flowering	12 Hours		5-10 ml/L or 4 tsp-2¾ tbsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal			1-2 ml/L or ¾-1¾ tsp/Gal
Week 5 Flowering	12 Hours		5-10 ml/L or 4 tsp-2¾ tbsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal	1 g/10 L or ½ oz/2½ Gal		
Week 6 Flowering	12 Hours		5-10 ml/L or 4 tsp-2¾ tbsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal			1-2 ml/L or ¾-1¾ tsp/Gal
Week 7 Flowering	12 Hours		10 ml/L or 2¾ tbsp/Gal	3-5 ml/L or 2½-4 tsp/Gal	2 ml/L or 1½ tsp/Gal		2-5 ml/L or 1¾-4 tsp/Gal	↕ OR ↕
Week 8 Flowering	12 Hours		10 ml/L or 2¾ tbsp/Gal	3-5 ml per L or 2½-4 tsp per Gal	2 ml/L or 1½ tsp/Gal		2-5 ml/L or 1¾-4 tsp/Gal	
Week 9 Flowering	12 Hours		10 ml/L or 2¾ tbsp/Gal	3-5 ml per L or 2½-4 tsp per Gal	2 ml/L or 1½ tsp/Gal		2-5 ml/L or 1¾-4 tsp/Gal	1-2 ml/L or ¾-1¾ tsp/Gal
Week 10 Flowering	12 Hours							

- Please note: Big Blossom is measured/10L/2½ Gal.
- \* During week 4 (or just before desired height is achieved) introduce MEGABUD into your feeding schedule to regulate the height of your plants and encourage multiple bud sites. Use it again in week 6 to act as a finisher, **OR** in week 9 to harden flowers.

*All measurements are based on water with a ppm of 0. This feeding schedule is produced by the manufacturer and is only a guideline. Individual results may vary and are not guaranteed. Not all plants will react the same to every product. It is important that you experiment with different products and dosages to come up with a feeding schedule that meets your needs to produce plants with maximum yield.*
